## Mana Class: Empowering the voice of Women

<p>Mana Class with SPREP with financial support from WMO, Pacific SIDS CREWS Project, Environment and Climate Change Canada and the Government of Samoa. Training support provided by Pacific Environment Journalists Network, Pacific Media Network and Radio New Zealand Pacific. 1.30pm – 4.30pm • 3 August 2019 • Sheraton Hotel</p>	
<b>About this training:</b>	Communicating information clearly and effectively to a wide audience helps enable effective preparedness for weather and climate impacts to come. Hence the role of communications for Meteorological Services across the world is crucial to the well-being and survival of many Pacific island communities and people.
<b>Format:</b>	4hour Mana Class
<b>Target group:</b>	Pacific Island women working in Meteorological and Hydrological Services
<b>Course goal:</b>	Women participants at the Women Leadership in Meteorology and Hydrology workshop for Pacific Small Islands Development States (SIDS) in WMO Regional Association V (South-West Pacific) will be empowered to communicate effectively.
<b>Course outcomes:</b>	As a result of this Mana Class, Women participants at the Women leadership in Meteorology and Hydrology Workshop will have <ul style="list-style-type: none"> <li>• Increased confidence in communicating information</li> <li>• Effective communications through using preparation tools shared in the Mana class</li> <li>• Stronger understanding of social media and radio, including the best ways to utilise these.</li> </ul>
<b>Prerequisites:</b>	To be eligible to do this course, participants will need to be: <ul style="list-style-type: none"> <li>• A participant of the Women leadership in Meteorology and Hydrology Workshop</li> <li>• Fully funded under the Pacific Meteorological Council 2019 event</li> </ul>
<b>Tagline</b>	<i>The [Insert name here] Mana Class was held on [Insert date here] August, 2019 before the Fifth Pacific Meteorological Council to take place from 7 – 9 August, 2019 in Samoa. It is a partnership between the World Meteorological Organisation, the Climate Risk and Early Warning Systems Project, Environment and Climate Change of the Government of Canada, the Government of Samoa and the Secretariat of the Pacific Regional Environment Programme, United Nations Development Programme, IMPACT, Commonwealth Scientific and Industrial Research Organisation, and the Climate and Ocean Support Program for the Pacific. Facilitated by SPREP, this is one of three communication Mana classes conducted with training support from the Pacific Environment Journalists Network, Pacific Media Network and Radio New Zealand Pacific.</i>
