# SANMA Province CLIMATOLOGY MAPS

**This publication and all maps © Copyright 2023 Secretariat of the Pacific Regional Environment Programme.**

*Maps are based on all currently available rainfall and temperature station data for the period 1991–2020.*

Booklet produced on behalf of VMGD by the Vanuatu Klaemet Infomesen blong Redi, Adapt mo Protekt (VanKIRAP ) Project.

Map technical production by National Institute of Water and Atmospheric Research / Taihoro Nukurangi (NIWA), New Zealand.

VanKIRAP is implemented by the Secretariat of the Pacific Regional Environment Programme (SPREP) in partnership with VMGD, and funded by the Green Climate Fund.

# TABLE OF CONTENTS

## RAINFALL

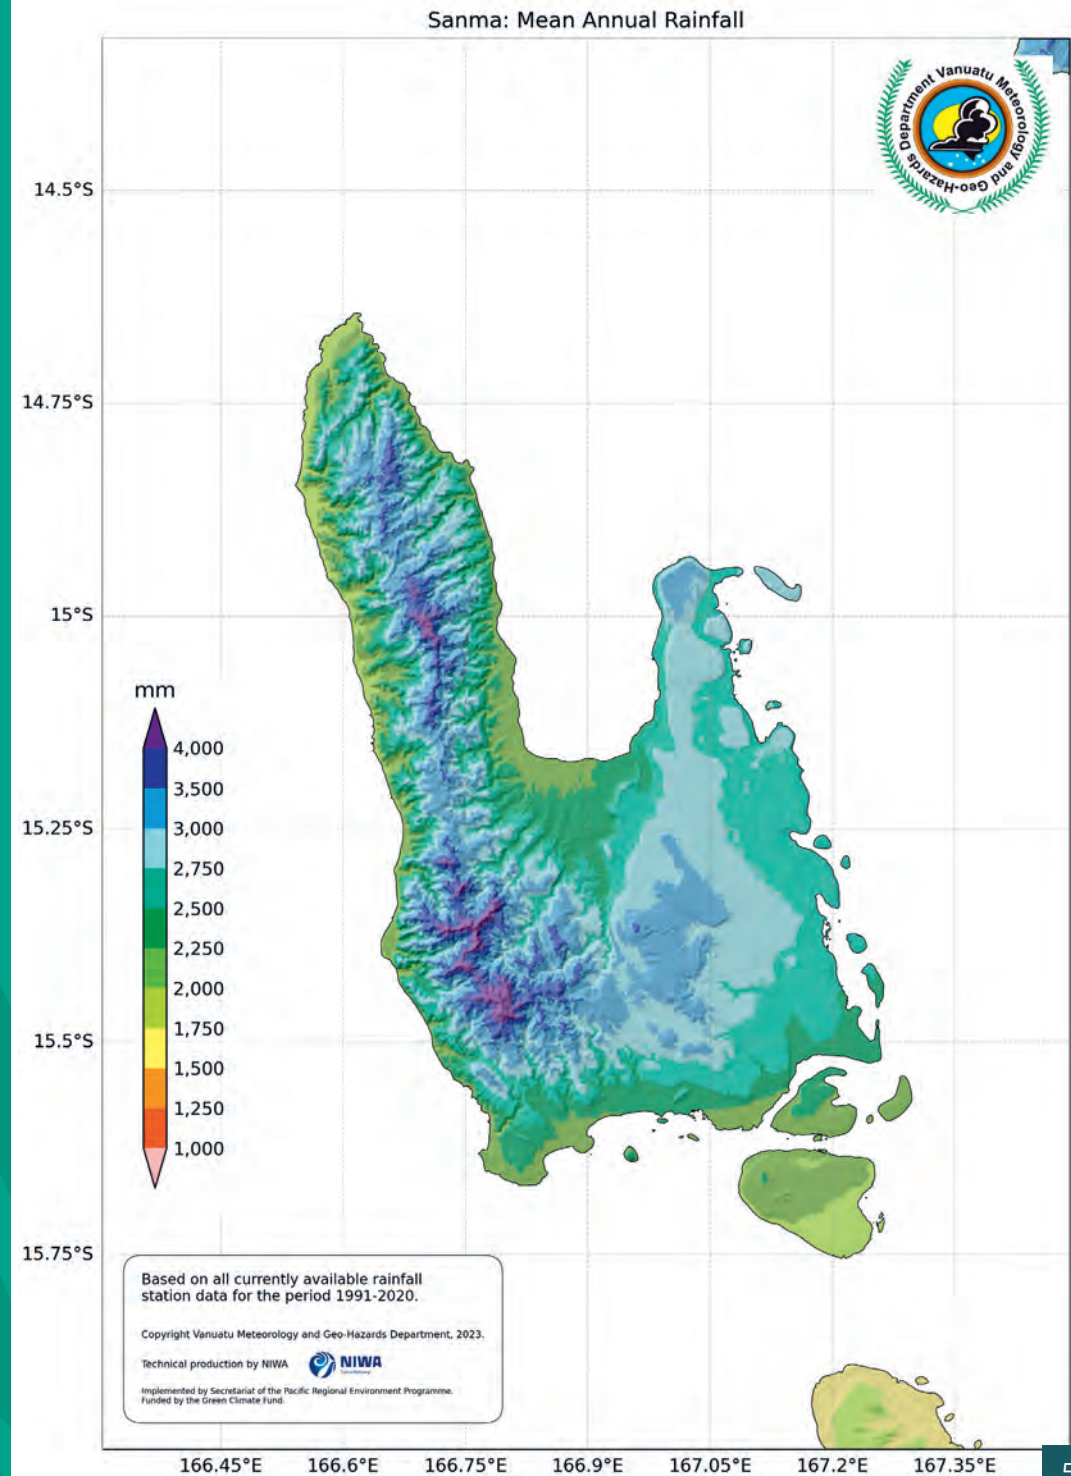

|                            |    |
|----------------------------|----|
| Annual mean rainfall.....  | 5  |
| Monthly mean rainfall..... | 6  |
| January.....               | 6  |
| February.....              | 7  |
| March.....                 | 7  |
| April.....                 | 8  |
| May.....                   | 8  |
| June.....                  | 9  |
| July.....                  | 9  |
| August.....                | 10 |
| September.....             | 10 |
| October.....               | 11 |
| November.....              | 11 |
| December.....              | 12 |

## TEMPERATURE

|                                |    |
|--------------------------------|----|
| Annual mean temperatures.....  | 14 |
| Monthly mean temperatures..... | 15 |
| January.....                   | 15 |
| February.....                  | 16 |
| March.....                     | 16 |
| April.....                     | 17 |
| May.....                       | 17 |
| June.....                      | 18 |
| July.....                      | 18 |
| August.....                    | 19 |
| September.....                 | 19 |
| October.....                   | 20 |
| November.....                  | 20 |
| December.....                  | 21 |

○ Stations

Based on all currently available rainfall station data for the period 1991-2020.

Note: Climate station markers are coloured using the same classification and colour scheme as the underlying climate grid. Stations with shorter climate records have less influence on the climate surface and may display a different colour.
